The Department of Environmental and Global Health, located in the College of Public Health and Health Professions (PHHP), is seeking to hire an investigator at the Associate or Full Professor level with expertise in Burkholdaria species as part of the University of Florida’s preeminence initiative. This is a full-time (1.0 FTE), 12-month tenure-track position. Candidates must have a doctoral degree (PhD, MD, DVM, or equivalent). Successful candidates will have a strong research background in work with Burkholadia, including a strong record of publication and extramural research funding relevant to this group of microorganisms. This position will be based at the UF Emerging Pathogens Institute, a multidisciplinary research institute focusing on the characterization of emerging and reemerging pathogens, their modes of transmission, and approaches to their control, with his/her primary faculty appointment in PHHP. The incumbent is expected to maintain a strong research program, with extramural funding; position will involve a minimum of 75% effort committed to research. Compensation and start-up packages will be contingent on investigator background and needs.
